

Here's How You Get Motley Fool Dividend Investor Canada Picks at a Discount!

## Description

### Find out about our picks for the most promising income-producing stocks in the market — at a discount.

Since January 2017, the *Motley Fool Dividend Investor Canada* service has made it its mission to provide Canadian investors with what we believe to be the single best *Canadian* dividend-paying stock on the market each month. And the performance of the picks that *Dividend Investor Canada's* Bryan White and his team of experts have found has given investors roughly a 7 percentage point advantage over investing in the S&P/TSX Composite index in a short period of time. Below, we'll show you how you can get access to the winning picks that this service has made — while paying far less than you'd ever think possible.

### What makes *Dividend Investor Canada* picks so special

*Motley Fool Dividend Investor Canada* focuses on delivering dividend-paying stock recommendations that Bryan and his team think are the absolute best ideas in Canada at that moment. Each pick will feature a solid management team and a business strategy that they think is sustainable over the long run.

Every month, subscribers receive one recommendation of a stock that meet the *Dividend Investor Canada* criteria that the team believes has the potential to produce high long-term returns. They also have ongoing access to the service's list of Wild Card stocks, which come out once every quarter and can cover a "dangerous" dividend payer, a U.S.-listed dividend payer or an emerging dividend payer. This quarterly release helps round out the regular recommendations that *Dividend Investor Canada* members can use to guide their investing decisions.

### The true value of *Dividend Investor Canada* picks

A look at the top picks from *Motley Fool Dividend Investor Canada* really brings home the value that the service provides. The service's first dividend-paying recommendation was **Summit Industrial Income REIT** ([TSX:SMU.UN](#)), an owner of a collection of 'light' industrial property with a strategic focus on the Greater Toronto Area. Combined with its current yield above 7%, the stock has delivered investors a total return of over 20% in less than a year, and the potential for further growth still exists within its industry.

Finally, its exposure to a wide range of renewable energy projects has helped **Brookfield Renewable Partners** ([TSX:BEP.UN](#)) deliver a total return of over 15% since January 2017. Looking forward, the *Dividend Investor Canada* team is confident that, with the guidance of **Brookfield Asset Management** (TSX:BAM.A), Brookfield Renewable Partners (and its current yield near 6%) can deliver market-beating gains for years to come.

## How to access your discounted *Dividend Investor Canada* subscription

Now, the standard asking price is just \$349 per year.

But, don't worry! You won't have to pay anywhere near that much to "test drive" *Dividend Investor Canada* for a full 30 days today.
